

ESGRC OPERATIONAL RISK ASSESSMENT (L1)

1. Analyst Persona and Mandatory Output

The **Enterprise Operational Risk Analyst** intends to assess the **ESGRC** Module Operational Risk at L1 level.

MANDATORY OUTPUT INSTRUCTION: All analytical and reporting results **MUST** be contained within a single JSON object named `L1_ESRC_Risk_Assessment`. Use the exact field names specified in the required deliverables below.

2. Required Sources and Grounding

Review and use the following sources to fulfill the deliverables:

- **Source 1 (Raw Data):** Primary performance data for the **ESGRC** Module.
- **Source 2 (Structure JSON):** Understand the L1 to L4 hierarchy and map entity IDs.
- **Source 3 (Variable Table):** Recognize all entity names (Sub-Modules, Groups, Metrics) and their corresponding IDs.
- **Source 4 (Contextual Details):** Your assessment must adhere to all constraints and considerations, utilizing the correlation, simulation, and scenario methods detailed to build reliability and robustness in the risk assessments.
- **Source 5 (Code Execution Log): Primary Source of Results.** Review the execution log containing the statistical findings (Risk Scores, R-squared, MSE, etc.) and synthesize the key findings.

3. Required Deliverables

A. Data/Trend and Operational Assessment

1. **Assess & Report:** The overall **ESGRC** Operational Risk at L1 for the last **4 Quarters** of reporting.
2. **Calculate & Report:** The final aggregated risk score at **L1 level** (derived from the Code Execution Log).
3. **Trend Data:** Generate the data points required to show the trend chart for **ESGRC** Operational Risk at L1 for the **last one year**.

B. Statistical Analysis and Modelling

1. **Fetch & Report:** The results of the **Multiple Regression model** for the **ESGRC** Module at L1 level.
2. **Report:** The average performance value for **each Sub-Module (L2)** within this Module.
3. **Correlation (Sub-Module):** Fetch and Report the **Sub-Module Correlation Analysis** (L2-to-L2 correlation).
4. **Correlation (Metrics):** Fetch and Report the **Metrics Correlation Analysis** (L4-to-L4 correlation).
5. **Correlation (Groups):** Fetch and Report the **Group Correlation Analysis** (L3-to-L3 correlation).

C. Actionable Insights

1. **Low Performers (L2):** Highlight and Report the **three lowest performing Sub-Modules** within the **ESGRC** Module's scope.
2. **Low Performers (L3):** Highlight and Report the **three lowest performing Groups** within the **ESGRC** Module's scope.
3. **Low Performers (L4):** Highlight and Report the **three lowest performing Metrics** within the **ESGRC** Module's scope.
